

**PETER GILL
DIRECTOR**

QUALIFICATIONS

Bachelor of Engineering with Honours, University of Tasmania 1978

Registered Professional Engineer, Queensland

KEY COMPETENCIES

Structural design, coordination and project team management of major commercial projects, including hotels, hospitals, retail and office developments.

Stephen has extensive understanding of commercial construction techniques and is able to invest this knowledge into the design of readily buildable and economical structures that respect the particular skills of the contractor.

Stephen has demonstrated the ability to work closely with leading Architects, helping them bring to reality a broad range of developments, from domestic homes, through to icons of Melbourne's urban environment.
