

**LOU PIOVESAN  
DIRECTOR**

**QUALIFICATIONS**

Bachelor of Engineering (Build)

Member, Institution of Engineers, Australia

**KEY COMPETENCIES**

Structural design, coordination and project team management of major commercial projects, including apartments, hotels, hospitals, retail and office developments.

Over many years of hands-on practice, Lou has obtained an extensive understanding of construction techniques, which he incorporates into designs, to produce readily buildable and economical structures, which respect the intent of the architecture and skill of the contractor.

Lou has established good working relationships with many leading architects and has successfully assisted to deliver a broad range of developments across Melbourne and its surrounding inner suburbs.

**EXPERIENCE**

**2004 to date:** Appointed Director

**2000 to 2004:** Associate Director

**1998 to 2000:** Associate

**1987:** Design Engineer
