

**JOHN VELOSA
DIRECTOR**

QUALIFICATIONS

Master of Science in Engineering
Chartered Member, Institute of Engineers Australia
RPEQ

KEY COMPETENCIES

John has 24 years experience in the design of all types of structures from feasibility to concept, through documentation and site phase, both from a consultant and constructor perspective.

He is conversant with both building and engineering structures and has particular expertise in underground construction. John has been the design leader on many large multidisciplinary projects in all Australian states and SE Asia.

It is envisaged that he would be responsible for the underground structure and the interfaces with the existing transport infrastructure, as well as the Brisbane presence of the design team.

EXPERIENCE

1993-94 and 2003-06: Associate to Director, Bonacci Group Pty Ltd

2000-03: John Holland Group

1994-2000: Associate Director, Hyder Consulting Hong Kong

1990-94: Hyder Consulting, Brisbane

1986-90: Moir & Harding, Brisbane

1982-86: Construction contractor and design consultants, Lisbon, Portugal
