

DIAMOND HILLS ESTATE

110 lot residential development on a former Council tip site. Project involved liaison with environmental consultants and use of high energy compaction techniques to achieve pre-settlement of the deep refuse area.

Bonacci Group provided design of extensive road, sewer, stormwater and watermain works. Water Sensitive Urban Design solutions were provided in collaboration with the landscape architect and stormwater quality was analysed using 'MUSIC' software.

Location:
Greensborough, Victoria

Client:
Pacifica Corporate Developments

Contractor:
Fortuno Group
