

## FORD - YOU YANGS TESTING FACILITY, VEHICLE DYNAMICS AREA (VDA)

The VDA project incorporates 2.3km of asphalted road surface and a 3.3 hectare asphalted dynamics test surface which were designed and constructed to extremely tight tolerances.

Bonacci Group utilised the three dimensional visualisation capacity of 12D to produce a simulated drive through to allow the client to more clearly picture the shape of the test area project.

Location:  
Geelong, Victoria

Client:  
Ford Company of Australia
