

RACV HEADQUARTERS

A new building to house the RACV Club, as well as office space over, with a cruciform floor plate, 20 levels of apartment/office buildings and 4 levels of below ground carparking.

Floors are of long span steel framed construction, to take advantage of current design regulations, speed of construction and the Builder's preferred methodology. The complex incorporates three basement levels and twenty levels above ground.

The development contains:

- luxury accommodation
- car parking
- a range of dining and bar facilities
- fitness centre
- reception and lounge
- gymnasium
- change and rest rooms
- 25 metre six-lane indoor swimming pool
- day spa
- business centre
- conference and event facilities
