

## RMIT Swanston Academic Building

This substantial project is to be developed in two stages, over two sites; in Swanston and A'Beckett Streets, Melbourne.

Stage 1 of the development will comprise some 46, 000 square meters of floor space for RMIT uses, whilst Stage 2 proposes up to 30,000 square metres of floor space for commercial purposes, with associated car parking.

RMIT uses will include new learning facilities, student support spaces and academic staff accommodation, plus new offices for administrative staff.
