

MELBOURNE EXTENDED CARE AND REHABILITATION SERVICE, PARKVILLE

This project has developed new facilities to implement policy changes in extended care services away from large aged residential care and bed-based services, towards specialized services for older people, with a focus on assessment and treatment, with access to specialised clinical services and rehabilitation services, including Hydrotherapy.

Location:
Melbourne, Victoria

- The following services are delivered from new and refurbished facilities:
- Medical centre, including specialist clinics for procedures and treatment
 - Radiology services – Rehabilitation in-patient services
 - Community rehabilitation and out-patient services
 - Residential care for residents with complex neurological disorders
 - Hydrotherapy services
 - Geriatric evaluation and management services
 - Community assessment and care services staff accommodation
 - Professorial Unit for Rehabilitation and Gerontic Nursing
