

COTTON BEACH

Multiplex Living's Cotton Beach development consists of 129 apartments and a café and is located in the beachfront community of Casuarina Beach on the far north coast of NSW and is a prestige low-rise, multi-residential development which forms part of the award winning master planned community of Casuarina Beach. The project features a central lagoon pool area and numerous apartments have individual plunge pools with infinity edges with the development rising three levels above ground with a single level basement. The project utilized full load bearing precast which helped significantly reduce construction times and also create the curved balconies which give this development its distinctive shape.

Location:
Casuarina, New South Wales

Client:
Multiplex Constructions
